## Location and Historical Sketch

B

IDDLE UNIVERSITY was founded in 1867, and is located in Charlotte, N. C. The Institution was named in memory of the late Major Henry J. Biddle, of Philadelphia, whose widow, Mrs. M. D.

Biddle, was one of its most liberal supporters. The first eight acres of land were given by Mr. William R. Myers, of Charlotte, N. C. It is chartered by the legislature of the State, and is under the Presbyterian Church in the United States of America.

It stands at the radiating point of seven railroads, in the midst of a dense and comparatively intelligent population, and occupies a site of seventy acres within the city limits.

It is situated in the heart of the South Atlantic region, which contains the two Syncds of Atlantic and Catawba, having 322 colored churches, 211 ministers, scores of young men in preparation for the ministry, with a large number of schools and academies under their care. These schools and churches must be furnished with intelligent Christian teachers and preachers, who must be largely educated on the field, and in contact with the people among whom they are to labor. Such training is given here at less expense than it could be elsewhere; the student has the best opportunity for a Christian education together with the refining influences of a Christian home; and he is kept at the same time in contact and sympathy with the people.

## School of Theology

## **Faculty**

REV. H. L. McCROREY, D. D.

REV. C. H. SHUTE, D. D. Professor of English Bible and Forward Mission Study

### Requirements for Admission

HIS SCHOOL IS OPEN TO YOUNG MEN of all denominations. Candidates for admission must produce evidence that they are members in good and regular standing in some evangelical church; that they possess competent talent, and that they have been regularly graduated from some college or university, or in some way have received an equivalent for the training of a college course. Applicants for admission to an advanced standing must present a letter of dismissal from some other theological seminary, or be prepared for examination on the subjects which have been pursued by the class which they desire to enter.

When a student who has been a member of any other theological school seeks admission into this, he must produce certificate of good standing and orderly dismission ere he can be received.

In exceptional cases, promising young men who have not had the benefit of a full college course will be received and will be allowed to pursue an elective course.

### Courses of Instruction

The numerals indicate the number of weekly sixty-minute recitation periods.

While Hebrew is not taught in the Senior Class in the regular course, yet in special cases it may be taught as an elective.

## Description of Courses

#### HEBREW-DR. McCROREY

JUNIOR CLASS: Hebrew begun. Recitations five times a week throughout the year. Text-books, Harper's Elements of Hebrew, and Harper's Introductory Hebrew. Method and Manual. Special emphasis is laid on the acquisition of a vocabulary. The inflection of the language and several hundred of the commonest words are memorized. There is a daily drill in reciprocal oral translation and in writing Hebrew.

MIDDLE CLASS: Reading from the Historical and Prophetical Books twice a week throughout the year. Text-books: Hebrew Bible, Harper's Hebrew Syntax, and Driver's Hebrew Tenses. Special attention will be given to the Syntax, to enlarge the vocabulary, and to rapid reading.

SENIOR CLASS: (Elective.) Reading at sight from the Historical Books, exegesis of Hebrew Prophecy and Poetry, twice a week throughout the year.

#### GREEK-DR. RUSSELL

1. A course upon New Testament Introduction, Criticism and Theology, once a week throughout the year.

JUNIOR CLASS will read the remaining three gospels with reference to the Harmony, and also to the distinctive character to each of the four gospels, three times a week throughout the year.

MIDDLE CLASS will read Ephesians with exegesis twice a week throughout the year. The other Epistles of the captivity—Philippians, Collossians, and Philemon—will be assigned for private reading. A summary of their contents will be considered in the class-room, and they will be required in the examination.

SENIOR CLASS will read Romans with exegesis twice a week throughout the year. The other Epistles of the Third Missionary Journey—I Corinthians, II Corinthians and Galatians—will be assigned for private reading. Their scope and contents will be discussed in the schoolroom and they will be required in the examination.

Page Thirteen

#### SYSTEMATIC THEOLOGY-DR. PARTEE

In this department, the purpose is to have each student read during his course, some standard work on Systematic Theology, and in addition to this read some authority on Theism.

This course of reading will be made the subject of the most thorough examination and free discussion, and will be supplemented by every available means which is likely to encourage and stimulate the student in his search of truth, and in preparation for its defense.

Systematic Theology is begun in the second semester of the Junior year and is completed in the Senior year. The doctrines of Theology are presented didactically, historically and problematically. The order of topics pursued is: The nature, forms and sources of Theology; the being of God, His nature and attributes; Trinity; the Divinity of Christ; the holy nature, necessity, perfection and extent of the atonement; His kingdom; His humiliation and exaltation; vocation; regeneration; faith; justification; sanctification; the law of God; eschatology, the sacraments.

#### HOMILETICS-DR. JONES

The work of this department is carried on throughout the seminary course. In the Junior and Middle years, a text-book on the "Preparation and Delivery of Sermons" is read. This is supplemented by exercise in the analysis of sermons, and preaching before the professors and students of the University weekly.

In the Middle and Senior classes much attention is given to the preparation and criticism of sermon plans and *extempore* preaching.

#### CHRISTIAN EVIDENCES-DR. PARTEE

By means of text-books and discussions, the student is aided in verifying the Biblical proofs of Doctrine and Christian truth as represented in the symbols of the Church, and he is thus trained to express with facility and clearness the revealed will of God.

#### PASTORAL THEOLOGY-DR. PARTEE

The treatment of this subject is confined to the third year of the course. It is designed that each student shall become thoroughly acquainted with the best method of applying the message of salvation to the hearts and lives of men. Lectures are given, accompanied by the use of text-books.

The course includes the importance of ministerial piety, proper habits of study, skill and ability in the various branches of our church work, the pastor's duty and relation to the various courts of the church, and the various private and public duties pertaining to his office.

#### CHURCH GOVERNMENT-DR. PARTEE

Four lectures on the general subject are given to the Junior Class.

In the Middle Year the Form of Government with proof text is taken up and pursued through one semester and a minute comparison with other forms of Church polity is made.

In the Middle and Senior Years, the Book of Discipline is used as a text-book, accompanied by lectures.

#### BIBLICAL HISTORY-DR. PARTEE

Since sacred history is of vital importance as a part of a thorough theological education, the subject is pursued through the entire three years' course.

Biblical History is studied by the Junior Class, with the English version of the Old Testament as a text-book and Smith's Old Testament History as a guide, and is taught by lectures and constant references to the typical and preparatory nature of the Old Testament. The connection between sacred and profane history is pointed out, and attention given to Archeology, Geography, and Chronology.

#### ECCLESIASTICAL HISTORY-DR. JONES

This subject is taken up by the Middle Class, and taught by lectures, with text-books covering the period from Apostolic times to the Reformation—sixteenth century.

The Senior Class continues the subject from the Reformation to the present time, devoting the second term to the history of the Presbyterian Church of the U.S.A.

During each year a carefully prepared thesis having for its subject some leading personage, epoch, or phase, etc., from sacred history, is required from each student.

#### ENGLISH BIBLE-DR. SHUTE

One may know a great deal about the Bible, and yet be unfamiliar with the Book itself.

The design of this course is to secure to the students intimate first-hand knowledge of the Scriptures.

To this end the Bible itself is the text-book.

#### CHRISTIAN SOCIOLOGY-DR. McCROREY

One hour per week throughout the Senior Year is devoted to the study of Church and Social questions.

Instruction is given partly by the use of text books and partly by lectures; the aim being to treat the subject in a practical manner.

#### FORWARD MISSION STUDY-DR. SHUTE

This study is pursued once a week throughout the course; and its purpose is that the students may gain a knowledge of the countries where missions are to be established and maintained, and of the people of those countries, their forms of government, racial peculiarities, religious beliefs and degree of intelligence; also their environments, difficulties, discouragements and needs.

Such knowledge broadens the vision, increases giving, and leads to a higher life of service.

### Requirements for Promotion and Graduation

A grade of sixty-five per cent is required in a single study for each Semester, and a general yearly average of seventy-five per cent is required for promotion and for graduation. Each student attaining an average of ninety per cent. for the entire regular course, is granted the

### **Further Information**

Period of Study—The regular course of study, as in other seminaries of the Presbyterian Church, covers a period of three years.

Practical Work—The practical work of the ministry is joined with the work of preparation, as the theological students have opportunities of laboring as supplies in the neighboring churches during vacation and in term time.

With the facilities at hand, special and successful efforts are made to aid students in obtaining vacation employment along the line of their future work as teachers and preachers among the people.

Rules and Regulations—Except in a few particulars, the students of the School of Theology are not subject to rules and regulations which govern those of the other schools of the University.

Rooms—The rooms in McNamee Hall are reserved for candidates for the ministry. Each of the rooms is furnished with a bedstead, mattress, pillows, bureau, washstand, chairs, looking glass, etc., and is heated by steam.

Expenses—There is no charge for tuition or room rent.

There is a charge of ten dollars per month for board, in connection with the boarding department, where all the students living on the grounds are required to board; the theological students, however, are provided with senarate dining-room. The fee of ten dollars per month covers also expenses of fuel, light, and washing of towels and bed-clothing.

Examinations—The semi-annual examination will be conducted the last week in January and the last week in May. The examinations will be oral and written. Each student is required to take these examinations, and if by sickness or absence one fails to take them, he must submit to an examination with a corresponding class in a subsequent year.

## Requirements for Admission

Freshman Class—Fifteen units of secondary work are required for entrance, without condition, into the Freshman class. Students presenting thirteen units will be entered conditionally, with the understanding that the two units lacking will be made up by the end of the Sophomore year.

A unit in any subject signifies four sixty minute recitations per week for a period of thirty-six weeks and represents a year's study, constituting approximately a quarter of a full year's work in a secondary school.

This statement is designed to afford a standard of measurement for the work done in secondary schools. It takes the four year high school course as a basis, and assumes that the length of the school year is from thirty-six to forty weeks, that a period is from forty to sixty minutes in length, and that the study is pursued for four or five periods a week; but under ordinary circumstances, a satisfactory year's work in any subject cannot be accomplished in less than one hundred and twenty sixty-minute periods or their equivalent. Schools organized for any other than a four year basis can, nevertheless estimate their work in terms of this unit.

Of the fifteen units necessary for entrance twelve are required as follows:

English	3	Plane Geometry	1
Latin	$2\frac{1}{2}$	History	1
Greek	$1\frac{1}{2}$	Physics	1/2
Elementary Algebra	$1^{1/2}$	Physiology	$\frac{1}{2}$
•		Physiography	$\frac{1}{2}$

The other three units may be selected from the following group, with the values attached:

Solid Geometry	1/ <sub>2</sub> 1/ <sub>2</sub>	Chemistry	2
Trigonometry	1/2	French 1	
Botany	1/2	Bible 1	

Graduates of the High School of Biddle University, and affiliated schools having the standard High School course of study or its equivalent, are admitted to the Freshman class on certificate.

Other students making application for admission to the Freshman class will be required to conform strictly to the entrance requirements and will be admitted to the class by sustaining their examinations in the subjects mentioned in the requirements.

Advanced Standing—All candidates seeking admission to advanced standing should be prepared for thorough tests in the subjects taught in the class next below the one they may desire to enter.

Special Students—Mature persons who desire to pursue some special subjects, and who have had requisite preliminary training are allowed to enter the various courses of study in Biddle University without becoming candidates for degrees.

Such students are subject to the same regulations regarding attendance and examinations as candidates for degrees.

### Courses of Instruction

Biddle University offers two courses of study in the School of Arts and Sciences—the Classical, and the Scientific. In the Scientific course German is substituted for Latin or Greek. Students completing the Classical Course satisfactorily receive the degree of Bachelor of Arts (A. B.); those completing the Scientific Course, that of Bachelor of Science (B. S.)

The numerals indicate the number of weekly sixty-minute recitation periods.

## Description of Courses

#### DEPARTMENT OF ENGLISH-DR. JONES

FRESHMAN YEAR. Rhetoric: A course in oral and written expression of thought following the plan of a text-book designed to help Freshmen adjust themselves to all college work and to realize that English is an integral part of all.

SCPHOMORE YEAR. Rhetoric: The principles of argumentation are studied by text-book and exercise.

JUNIOR YEAR. English Poetry: A rapid reading of some and study of other representative poems.

The History of English Literature: Its history and significance for the life of the English speaking world.

SENIOR YEAR. The History of American Literature: A study of the men and the books that in the earlier and later times reflect the American spirit.

Reading from American Literature: Themes on the readings will be required.

PUBLIC SPEAKING. Under this department is the supervision of the following student literary exercises: Lincoln's Birthday Celebration, the March Exhibition of the Matoon and Clarisophic Societies, the Junior Class Orations preliminary to the Junior Prize Contest, and the Commencement Week Literary Student Exercises.

#### DEPARTMENT OF GREEK-DR. RUSSELL

Composition and Style. Plato, Apology and Crito. Special attention is given to word study, style and form, analysis and discussion.

Reading course. Stories from Herodotus. Due consideration is given to dialect study, words and analysis. There is also discussion as to the conflict culminating in the Greco-Persian wars.

Epic Poetry: Homer's Iliad and Odyssey—Six books. In connection with these poems, special stress is put on the following: Peculiarities of dialect, scansion, mythology, word study, and the manner of life and ethics in the Homeric age.

Greek Oratory: Demosthenes on the Crown. Grammatical construction and technical terms are studied, together with the history, laws and politics of Athens.

Greek Tragedy: Sophocles' Electra. Much time is devoted to the Greek Theatre, to style, to prosody, and to general discussions of the literature of the period.

Greek Testament: Special study is given to the gospels, including analysis, word study, rapid translation, and study of modes and tenses.

#### DEPARTMENT OF LATIN-DR. MARTIN

FRESHMAN YEAR: First Semester. Selections from Horace's Cdes and Epodes are studied. Attention is given to the principle meters, translating accurately the Latin, the study of the numerous references, to the influence of Horace upon English Literature, the purpose being, to foster a love for good literature as exemplified by this Latin poet. Special lectures are also given on Roman Life, Art and Customs.

Second Semester: Livy, Books XXI and XXII. The study of Roman prose style from the viewpoint of history and literature. Ascertaining the peculiar modes of expression, construction, rhetorical skill, the readable, and interesting narrative of Livy, the historian.

Options, First and Second Semesters for Freshmen: Selections, Metamorphoses—Ovid, Satires and Epistles—Horace, Germania and Agricola—Tactitus.

SOPHOMORE YEAR: First Semester. The Captivity and Trinummus of Plautus are studied:

1st. To portray the moral lesson and pure sentiments as well as instructive allusions to the manners and customs of the Roman Comedy during the Plautinian Age.

2nd. To form an acquaintance with antique forms and peculiar colloquialisms—the mere orthographical variations from the later and riper Latin—so as to give a keener zest and a maturer judgment to the study of the language as a whole.

3rd. To draw out the vivid pictures evidenced by the author's intimate knowledge of the different strata of

society, affording an agreeable variety to the study of the characters given.

Second Semester: The Satires of Juvenal are read for the information given on social life of Rome in his day, and to show to what extent contempt tinged with despair about a moral standard will lead. His short-sighted patriotism, causing him to regard all foreigners with scorn. To illustrate what a man endowed with unusual gifts, both of mind and heart and inspired by a genuine love of country, and earnest admiration for the simple manners of the past may attain.

Options, First and Second Semester, for Sophomores: Sight Reading, Letters of Pliny, Adelphoe or Phormio—Terrence. M. Fabius Quintilianus.

#### DEPARTMENT OF PHILOSOPHY-DR. ANDERSON

Psychology: The aim of this course is to acquaint the student with the fact of consciousness, and to instruct him in the method of study of mental phenomena. A thorough study is given to the self, its constitution and analysis; to attention, memory, imagination, association, habit and the will.

Logic: The course embraces a study of the use of terms, the laws of the syllogism, and the methods of deductive and inductive reasoning.

Ethics: In the study of Ethics, thorough and comprehensive discussion is given to conscience, its origin and function; to moral law, its meaning, design, and authority; and to the fundamental moral ideas of good, duty and virtue, and the order of their development.

#### DEPARTMENT OF ECONOMICS-PROF. DOUGLASS

The purpose is to acquaint the student with the history of economic development, especially the economic history of the United States. Attention is given to a study of value, price, monopolies, wages, industrial organizations, and labor problems, especially the labor problem as it relates to the Negro. The work is done by the use of text-relates to the Negro. The work is done by the use of text-books, supplemented by lectures. Written theses on as-required for entrance.

#### DEPARTMENT OF SOCIOLOGY-DR. DAVIS

This subject is treated broadly, but with a careful survey of the elementary laws of human society. Emphasis is placed upon the practical phases of the subject, such as the study of family organizations, charities, pauperism, criminology, and so-called solutions of social and economic difficulties.

The subject will be treated topically, and collateral

reading will be insisted upon.

#### DEPARTMENT OF NATURAL SCIENCE-DR. DAVIS

Botany: The subject seeks to impart a thorough knowledge of physiology, morphology and ecology of plant life. Much field work is done, and each student is required to prepare an herbarium of fifty specimens, and to present the same as a condition of passing in this subject.

Geology: This subject is presented in two principal phases: (1) Dynamic and Structural Geology, investigating geological forces and the work they accomplish, and a study of original and secondary rock structures. (2) Physiographic and Historical Geology, with special reference to the American continent and the study of the evolution of land and of life forms from the oldest to the most recent.

Astronomy: This is mainly a course in descriptive Astronomy. It aims to impart a thorough knowledge of the more important facts and principles of Astronomy, and some acquaintance with the methods of developing the truths of the science.

Recitations are supplemented by nightly studies of the heavens and a location of the principal stars and constel-

lations.

Chemistry: This course covers the scope of Elementary Chemistry. The recitations are accompanied by lectures, and the principles illustrated by experiments, which the student is required to perform, keeping notes of their work. A laboratory fee of one dollar must be paid for material.

Physics: The course covers the fundamental principles of Physics, including mechanics, properties of mat-

ter, heat and electricity, sound and light.

Much time is devoted to the solving of problems growing out of the practical application of the science.

#### DEPARTMENT OF MATHEMATICS-PROF. DOUGLASS

Solid Geometry: This course is given in the Freshman year and covers the work usually found in a good textbook, distinguishing, however, between the propositions that are strictly essential and those that are only supplementary in character. The mere memorizing of proofs is discouraged and exercises are assigned to train the student into the habit of independent thought and accurate reasoning.

Trigonometry: Plane Trigonometry is studied during the Sophomore year. The course includes definitions and the relations of the six trigonometric functions as ratios, general formulas, solutions of right and oblique triangles, using both natural functions and logarithms, inverse functions, radiangraphs of various functions, and the theory of trigonometric equations.

Advanced Algebra: Under this subject the following topics will be dealt with: Synthetic Division, New Symbols, Algebraic Symmetry, Permutations and Combinations, Probability, Complex Numbers, Determinants. Theory of Equations and the general solution of Numerical Equations.

Analytical Geometry: During the first half of the Junior year a brief course in Analytical Geometry is given which will acquaint the student with those parts that are essential for the study of Calculus. It includes co-ordinates and equations, the straight line, the circle, the parabela, the ellipse, the hyperbola, tangents and normal secants.

Calculus: The latter half of the Junior year is given to Calculus and it is treated under the following heads: Functions and limits, Differentiation, Application, Intergration and Partial Derivations.

#### DEPARTMENT OF HISTORY-DR. MARTIN

Junior Year: History of Western Europe. This course aims to give all the important knowledge of the movements, customs, institutions and achievements of Western Europe from the downfall of the Roman Empire to our own day.

Discussions upon the heritage of Rome, migration of the races, matters of first-rate importance; as Feudalism, the Mediæval Church, the Renaissance are thoroughly reviewed, and other germinal forces and incidents which explain the development of Modern Europe, and guide in forming clear comprehension of the present European states and policies. Important questions arising in the course of the recitations from the text-book are always supplemented by a full and free discussion.

Senior Year: English History. The purpose of this course is to study the different phases and trace the varied influences which brought about the growth of English institutions and English civilization, struggle for constitutional government against despotism, the extension of the Empire, the diffusion, development and advances along all lines, symbolic of this people.

The French Revolution. A complete survey is made of the things and occurrences incident to this terrible episode in French History, in removing the many absurd and vexatious laws and customs with abuses, tiring the whole nation, from the king to the peasant, and the substitution of the modern and more rational order for the long standing disorder.

American History: A thorough study of the facts and forces underlying American institutions, and which have formed the present day conception of our national development.

Special emphasis is placed upon the perusal of documents of authoritative source, such as state papers, private journals and letters, extracts from speeches and writings of public men, and newspaper narrative and comments.

The political, social, economic and sectional issues are considered. The United States Constitution, with amendments and various Reconstruction acts of Congress are critically studied for the information given concerning the re-adjusted rights of an emancipated and enfranchised race.

## Requirements for Promotion and Graduation

The minimum passing grade in any single study is sixty-five. A general average of seventy-five is required for promotion.

To receive the degrees, Bachelor of Arts and Bachelor of Science, students must complete one hundred and twenty semester hours in addition to the fifteen units required for entrance.

The semester hour consists of one hour a week of lecture or recitation, or two hours a week of laboratory work through one semester.

# High School

## Haculty

REV. H. L. McCROREY, D. D. President

REV. P. G. DRAYTON, D. D. Principal and Professor of English

THOMAS A. LONG, Ph. D.

Associate Professor of Latin and Professor of Music and
Natural Sciences

W. H. STINSON, A.M. Professor of Greek and Latin

J. W. SEABROOK, A. B.

WILLIAM M. BREWER, A. B. Professor of French and Civics

REV. C. H. SHUTE, D. D. Professor of English Bible

### Requirements for Admission

All applicants for admission to the High School must be at least fourteen years of age, and must furnish satisfactory testimonials of good moral character.

First Year—Applicants for admission to the First Year must have finished the eighth grade of the Grammar School or its equivalent; and should be prepared to pass a creditable examination in English Grammar and Composition, Arithmetic Geography, and American History.

Advanced Standing—Admission to classes higher than the First Year may be gained by the applicant's showing ability to do the work of the class just below the one he desires to enter.

In the event, however, the candidate admitted to a class fails to show ability to do creditably the work of said class, he may be withdrawn from that class and placed in a lower class.

### Courses of Instruction

The High School gives thorough and systematic instruction in the subjects required for admission to standard colleges. Students completing this course, and not desiring to pursue further their studies, have a good foundation for useful citizenship.

Two courses are offered—one leading to the Classical Course of the College, the other to the Scientific. The Scientific Course is identical with the Classical in the First and the Second Year. In the Third and in the Fourth Year of the Scientific Course German is substituted for Latin or Greek.

The numerals indicate the number of weekly sixty-minute recitation periods:

### Description of Courses

#### ENGLISH-PROF. DRAYTON

The main objects of this department are: (1) to give the student command of correct and clear English; (2) to lead him to an appreciation of the best in literature.

English Grammar is reviewed. Constant attention is given to correct spelling and accuracy in connection with all written work. Drill is given on the use of words, punctuation, analysis of sentences, paragraphs, and letter writing.

Composition is based on the student's personal experience, general knowledge and his reading in literature. Teachers in all branches are expected to exact of students the use of good English in all oral and written work.

First Year. English Grammar is reviewed. Special attention is given to words, analysis, punctuation and composition.

Text-book: Higher Lessons in English, Reed and Kellogg.

Second Year. Review of English Grammar is continued with constant drill on the structure of sentences and paragraphs. Composition, one recitation a week.

For Study: Longfellow's Evangeline, and Lowell's Vision of Sir Launfal as a basis for composition work.

For Reading: Three or four books from a prescribed list of about fifteen books.

Text-book: Higher Lessons in English, Reed and Kellogg.

Third Year: English Literature, three recitations a week. Composition one recitation a week. Emphasis is placed upon narrative and descriptive writing based upon the student's experience.

For Study: Scott's Lady of the Lake, Shakespeare's Merchant of Venice, Goldsmith's Deserted Village, Scott's Ivanhoe, and Dicken's A Tale of Two Cities.

For Reading: Three or four books from a prescribed list of eighteen books.

Text-book: A First View of English Literature, Moody and Lovett.

Fourth Year: The formal study of the general principles of rhetoric is taken up. The aim is to train the student to write effectively. At least two careful and thoughtful compositions showing the practical application of the principles of rhetoric are required for the year.

For Study: Shakespeare's Macbeth and Hamlet, Burke's Speech on Conciliation with America, Milton's Paradise Lost, and Emerson's Self Reliance and Friendship.

For Reading: Four or five books from a prescribed list of about twenty books.

Text-book: Composition and Rhetoric, Williams.

### LATIN-PROF. STINSON AND DR. LONG

First Year: This course is designed to give a mastery of forms and elementary syntax, along with the acquiring of a working vocabulary. A thorough drill is given in the fundamentals. Method of Roman pronunciation, quantity accent, special study of verb forms, noun and verb construction, daily practice in writing easy Latin sentences; easy stories and fables are read.

Text-book: A First Book in Latin, Tuell & Fowler.

Second Year: Work in inflection and syntax is continued with careful attention to idioms and constructions both in reading and in exercises in composition. Four books Caesar's Gallic War are read.

Text-books: Walker's Caesar and Allen and Greenough's Revised Latin Grammar.

Third Year: In this course six books of Virgil's Aeneid are read with daily practice in scanning during the latter part of the second semester. Exercises in prose compositions are given weekly throughout the year.

Text-books: Allen and Greenough's Virgil and Allen and Greenough's Revised Latin Grammar.

Fourth Year: Six Oratioss of Cicero (the four against Cataline, the one for the Manilian Law and for Archias) are read. Selections from Sallust's Cataline are read during the latter part of the second semester.

Throughout the above described courses, thorough drills in analysis and grammatical constructions are given daily.

Text-books: Cicero, Nine Orations, Harkness, Kirkland & Williams, and Allen and Greenough's Revised Latin Grammar.

#### GREEK-PROF. STINSON

Third Year: During the entire year, special attention is given to the forms of the language and the study of syntax. Much time is spent in daily drill in oral and written exercises.

Text-book: Beginner's Greek Book, Benner-Smyth.

Fourth Year: The work of this course consists in reading of four books of Xenophon's Anabasis, with careful reviews of forms and syntax.

Text-books: Goodwin's Anabasis and Goodwin's Greek Grammar.

#### GERMAN-PROF. SEABROOK

Elementary German. Abundant drill is given upon pronunciation and the rudiments of grammar. Easy German stories are studied; and the pupil is required to answer, in German, questions based on them. Translating short sentences from English into German, forms an important part of the course.

Text-books: Wesselhoeft's Elementary German Grammar; Guerber's Marchen and Erzahlungen.

### NATURAL SCIENCES-PROF. LONG

Physics. The aim of this course is to give a simple presentation of, and a reasonable insight into some of the

fundamental laws, including properties of matter, mechanics, heat, electricity, light and sound. Following the work of the text-book, much time is given to experimental work, illustrating principles considered.

Text-book: Elements of Physics, Fisher and Patterson.

Zoology. The course in this subject is intended to familiarize the student with the structure, physiology, and life-history of vertebrates and invertebrates, beginning with single-celled organisms and proceeding to the complex forms.

Text-books. Introduction to Zoology, Davenport.

Physiography. This course is designed to give a practical knowledge of the physical features of the earth, the forces of nature and their effect upon human life. Some time is given to laboratory work and field trips.

Text-book: Tarr's New Physical Geography.

### MATHEMATICS-PROF. SEABROOK

Algebra: The following subjects are covered: The four fundamental operations for rational algebraic expressions, parentheses; factoring; determination of highest common factor and lowest common multiple by factoring, fractions, including complex fractions, linear equations; graphical representations; simultaneous linear equations; simultaneous equations involving quadratics; equations simultaneous equations involving quadratics; special products and factoring; exponents, radicals, logarithms, progressions, the binorminal theorem; ratio, proportion, and variation; and supplementary topics, including cube root, detached coefficients, graphical solution of higher equations, indeterminate forms, and determinants.

Throughout the course special emphasis is laid on the solution of informational, geometric, and physics problems.

Text-books: Well & Hart's New High School Algebra. Geometry. The five books of Plane Geometry are com-

pleted and some time is given to the study of symmetry, maxima, and minima. Great care is given to obtain accuracy of statement and clearness of reasoning on the part of the pupil. Originality is encouraged.

Text-book: Wentworth & Smith's Plane and Solid Geometry.

### HISTORY-PROF, SEABROOK

Ancient History. This course includes a study of prehistoric man, the oriental peoples, the Greeks, the Romans and Romanto-Teutonic Europe down to the death of Charlemagne, 814 A. D. Emphasis is laid on the industrial and economic development and the home life of the ancient world.

Text-books: West's Ancient World, Davis' Readings in Ancient History.

### MUSIC-DR. LONG

The course in vocal music is designed to give a practical knowledge of the fundamental principles of music as an element of liberal culture.

Special drill is given in tonal form, rhythm, sight reading and expression. A period of one hour per week throughout the First, Second and Third Years High School is given to this course. Smith's Modern Music Series is the method used.

For advanced study in sight reading, expression and ensemble work, opportunity is given for the practice in the University Chorus. This organization includes the chapel choir and the well known "Biddle University Quintette" that has sung several consecutive years at the General Assembly of the Presbyterian Church in the U. S. A.

Instruction in instrumental music (piano) may be had by special arrangement.

For drill in ensemble playing the University Orchestra offers advantages for advanced study and practice. Rehearsal periods are twice a week for the musical organizations.

### Requirements for Promotion and Graduation

The grade requirements for promotion is the same as that of the School of Arts and Sciences—a general average of seventy-five per cent, with a minimum of sixty-five per cent in any single study.

Students completing either course will receive a certificate of graduation, which entitles them to admission into the Freshman class.

# School of Industries

### PROF. T. H. McNEIL

Superintendent

All students in the High School are required to take some trade and report twice a week for work in the Industrial School. College students may also take trades.

All students in the High School are required to make a grade in their industrial work.

First and Second Year students will rotate from shop to shop by semesters. Third and Fourth Year Students will not be allowed to rotate.

Students spending two years at some one trade will be given a certificate of proficiency upon the recommendation of his teacher.

At present several trades are being taught: Carpentry, Printing, Bricklaying, Plastering, Tailoring, Blacksmithing, Broom-making and Mattress-making.

# CARPENTRY AND MECHANICAL DRAWING Professor T. H. McNeil

Carpentry is taught in a room which is provided with twelve cabinet benches, each of which is fitted up with a set of carpenter's tools.

Students are taught the use and care of these tools, the principles of wood-working—from drawing and models—and have also such practical instruction as can be had from improvements and repairs of the building and furniture of the University.

Besides doing the necessary work of the school, a limited amount of work is done for outside parties. Three professors' houses have been built by the students, also a boiler house, and the new Industrial Building.

First and Second Year students will do elementary sloyd work. Only simple tools will be used. The models to be made will consist of small box carts, toy furniture, match boxes and striker combined, whiskbroom holders, etc.

Third and Fourth Year students will do advanced carpentry, cabinet-making and model-making.

### PRINTING Professor William E. Hill

This office is equipped as any regular printing establishment would be. Besides the ordinary office furniture it has three printing presses.

The course of instruction in printing, as in the other branches of industry, covers a period of four years. During the first and second years attention will be given to the names and uses of tools and materials, the lay of type cases, the names and styles of type, and type composition.

In the third and fourth years instruction is given in the setting of jobs, the running of presses, the making of forms, and proof reading.

In this office the "Africo-American Presbyterian" and the "Biddle Outlook" are set up and printed, and job work is done, thus giving the students actual printing office instruction and practice, both in type setting and press work. The office is equipped for doing excellent work, and the instruction is thorough and practical.

### MASONRY AND PLASTERING

These two trades have been introduced, and instruction in them is being given daily with very satisfactory results. These branches are putting a goodly number in possession of skill that will command work and good pay.

First and Second Year students are taught the names, use, and care of tools, making and spreading of mortar, laying to the line with speed, simple bonding, constructing of scaffolds, building of piers, and brown and white coating.

Third and Fourth Year students are taught raising of corners, line work with arches, setting of windows and door frames, grate setting, kalsomining, sand finishing, and concreting. Emphasis is placed on neatness.

### TAILORING

The room for this branch of industry is provided with all the necessary facilities for teaching and learning this important trade. Cleaning, pressing, hand and machine, sewing and repairing are done, and the various elementary principles of the work are taught. The advanced students are taught cutting and fitting.

#### BLACKSMITHING

This division is provided with necessary facilities for teaching banding, stripping, twisting, upsetting, boltmaking, thread cutting, welding, and general tool making. The student gets a practical knowledge of blacksmithing from doing repairs for the University and outside parties.

# BROOM AND MATTRESS MAKING Professor M. S. Sanders, B. S. M.

Broom Making—Each student is given instruction in this course in the importance of sizing, color-sizing and grading broom corn. The student gets a practical knowledge of this trade, as brooms are made and put on the market.

First and Second Year students are taught separating the insides from the hurl; grading the hurl and insides, drying the hurl and insides, sewing, bunching and making Numbers 3 and 4 brooms.

Third and Fourth Year students are taught advanced broom making; making of toy, whisk, and velvet cap brooms, buying material and shop management.

Mattress-Making.—This course covers two years. The first year student is taught husk and straw mattress-making. The second year the student is taught cotton, hair, combination and roll edge mattress-making and sewing.

Freshman Class53	
Post Graduate 1	Total Enrollment 252

### General Information

### THE SCHOOL YEAR

The school year begins the third Wednesday in September at 9 o'clock a.m., and closes the first Wednesday in June.

The school year consists of one session of thirty-six weeks and is divided into two semesters; the first semester beginning with the opening of the school, and closing the 31st of January; the second semester beginning February first and closing with the close of the school session.

Students are required to report promptly for duty at the opening of each semester.

Students desiring to enter should make early application to the President.

#### EXAMINATIONS

Regular examinations are held at the close of each semester. These examinations are both oral and written and are required of all students.

Students are admitted to regular examinations by cards which are granted after all financial obligations with the institution for the semester in which the examination is to be taken have been settled.

#### THE HOME DEPARTMENT

### L. L. Spaulding, A. M., Superintendent

This department includes the orderly keeping of the grounds, the supervision of the dormitories and public buildings, and all that pertains to the immediate management of the students as to board and home life.

The Superintendent and his family live among the students, and give to them such care and attention as they would receive in a well organized Christian home.

Except the day students, all are required to live in this department.

#### **EXPENSES**

The expenses mentioned below include only those items for which charge is made by the Institution. Books, stationery, etc., may be purchased at the University Book

Store, and will range from \$5.00 to \$8.00 per school session, depending upon the class in which the student is enrolled. Laundry of wearing apparel and similar personal expenses will range from \$1.00 to \$2.00 per month.

Board and Lodging—The cost of board and lodging is ten dollars per month of four weeks, payable monthly in advance.

Tuition—Day students only are charged tuition, which is \$2.00 per month of four weeks, payable monthly in advance.

Registration Fee—A deposit of \$1.00 is required of each student upon entering, as a fee to pay for injury to furniture, losses, breakage, etc.

Key Deposit—Each student on being assigned a room is furnished with a key for which he is required to deposit 20 cents with the Superintendent, said sum to be returned on delivery of the key at the close of each school session or when the student leaves the Institution.

Graduation Fee—Students graduating from the School of Arts and Sciences are required to pay in advance a graduating fee of five dollars.

Estimated Expenses of a Boarding Student for One Ye	ar
Board and Lodging, nine months\$	91.00
Books, Stationery, etc., about	
Laundry, etc., about	
Registration Fee	1.00
_	

\$108.00

All accounts with the Institution are due and payable in advance. Boarding students are not received for less than one month and no deduction for absence can be made unless ordered by the faculty. Any student remaining in arrears to the Institution for more than ten days forfeits the privileges of the Institution, unless satisfactory arrangements have been made otherwise.

Wholesome and substantial table board is furnished in the University dining room to all students except day pupils.

Two dormitories, Carter Hall and McNamee Hall, furnish lodging to all boarding students. Rooms are steam-

heated and electric lighted and each is furnished with a bedstead, mattress and two pillows, washstand, two chairs, mirror, and towel and bed-linen laundered by the Institution.

As far as necessary rooms in McNamee Hall are reserved for theological students and candidates for the ministry.

PECUNIARY AID

Candidates for the ministry and young men of promise will receive such aid as their necessities and the resources at command will allow. Friends in Scotland have established a fund of six thousand dollars, the interest of which is to be used to aid young men in preparing for mission work in Africa.

Should any beneficiary of these funds marry before completing his course of study, thereupon his aid will be forfeited; nor will any one be aided who uses topacco in any form.

### Rules and Regulations

- 1. No one under fourteen years of age will be admitted to the school. Applicants who are strangers to the Faculty must bring a satisfactory certificate of good character, and steady, industrious habits. Every student by his enrollment, contracts to obey the regulations of the University.
- 2. Students are at all times expected to act with respect and courtesy toward their instructors and fellow-students, and observe cleanliness and neatness in person, clothing and room.
- 3. Students are required to attend chapel exercises, Sabbath School, and preaching services Sabbath evenings. Day students are excused on Saturdays and Sundays.
- 4. Day students while on the grounds are subject to all the rules of the Institution.
- 5. Punctuality and diligence in regard to all studies and exercises are required.
- 6. During the time set apart for study, students will remain in their rooms or in such places as may be designated for study. Talking, loud studying, or visiting from

room during study hours, and boisterous, rude conduct in any of the buildings at any time, are prohibited. All students are expected to be in their rooms and quiet between ten p. m. and six a. m.

- 7. Low, vulgar, or profane language; the use of ardent spirits, wine, or beer, tobacco in any form, keeping, or handling of pistols, and all games of chance are prohibited.
- 8. Students are forbidden to mark or deface in any way the building or furniture, or to throw slops, paper, or anything that would cause a nuisance from the windows or about the grounds. Any damage done by wantonness or carelessness must be paid for by the person doing same.
- 9. Students are forbidden to entertain other students, their friends, or strangers in their room over night. Students having friends for whom they desire either meals or lodging will report to the Superintendent.
- 10. Students are forbidden to hold any public meetings on the premises of the University, for any purpose whatever, without special permission from the President.
- 11. Students are forbidden to give entertainments of any character or invite guests without special permission.
- 12. Students are allowed to attend the city churches on the Sabbath between the hours of 10 a.m. and 7:30 p.m., but no one will be permitted to leave the grounds at other times without special permission, except Saturday afternoons, when general permission is granted for shopping, etc., in the city.
- 13. A monitor will be appointed for each floor or building, who shall report any neglect or disorder.
- 14. Violation of the rules will subject the offender to discipline.
- 15. The discipline is impartial and firm. Demerited students shall not take part in public exercises unless relieved by special action of the Faculty. Should the number of demerits reach twenty-five in any one session, the delinquent is subject to suspension.
- 16. Each student on entering the University is required to sign the following:

I, A. B., now entering Biddle University as a student, do solemnly promise to obey all the rules and regulations for the government of students, as long as I remain a student. (Signed)

In order to preserve health, cultivate manual skill, develop taste, and at the same time keep the buildings in order, and improve and beautify the grounds, all students are expected to work.

Friday— 7:00 to 10:00 p. m., Literary Societies.

Saturday— 7:00 to 8:00 p. m., Conference and Prayer.

### Athletics

Athletic sports are permitted and encouraged within certain prescribed limits, chiefly for the following reasons: 1st, They provide wholesome recreation; 2nd, They give healthful exercise in the open air. Growing youths naturally seek recreation of some kind. recreation should be something radically different from their sedentary habits of study, and should contribute directly to their physical well-being. The University owns no gymnasium, so instead, a variety of games have been introduced with the end in view that all of the students may participate in some form of systematic exercise. The faculty maintains supervision over the athletics in order that it may be assured that the various sports are conducted on a high and clean basis, and that they are not indulged in to the extent that studies or duties are neglected.

The Athletic Association, under the direction of which the games of baseball, football, basketball, and tennis are played, is a member of the North Carolina Inter-Collegiate Athletic Association, an organization that has done much to establish and maintain a high standard in college athletics. Any student may become a member of the Biddle University Athletic Association by paying the annual fee of fifty cents.

### Literary Societies and Reading Circles

There are four flourishing literary societies—the Mattoon, the Clarisophic, the Johnson, and the Douglass. The exercises consist of composition, discussion and debate. These societies also have school courts connected with them, are governed by laws enacted by their members, and are presided over by officers elected from the members. Every student is required to become a member of one of these societies, and to attend upon the exercises. The whole is under the supervision of the Faculty.

There are also three reading circles—the Non Forma, the Literary Research, and the Olympia. These circles aim to keep pace with current events and opinions, to stimulate and develop literary taste and refinement, and to familiarize the members with the works of standard

authors.

#### CARNEGIE LIBRARY

There are about ten thousand volumes now on the shelves of the library, and this number is being rapidly increased by purchase and by the gift of generous friends.

In the spacious reading room are found a set of the New International Encyclopedia and Webster's New International Dictionary. Here also is a large number of newspapers, secular and religious, and many of the best magazines in the country.

Utmost care was exercised in the selection, arrangement, and classification of the books of the library, which is operated according to the latest method of library management.

The library is open daily except Sunday, and students of all departments are allowed to borrow books under special regulations.

In addition to the stack and reading-rooms, the library building affords space for store-rooms, a book room, and a large and well-lighted and thoroughly furnished Y. M. C. A. Hall.

The facilities for lighting and heating this building, in fact, the entire equipment is strictly modern.

In addition to the books purchased during the scholastic year, contributions were made by the following:

The Presbyterian Board of Publication and Sabbath School Work, Philadelphia, Pa.; The Bross Library; Rev. George H. Feltus, Elmhurst, N. Y., and Mrs. M. E. Thomas, Lewisburg, Pa., who gave a large and choice collection of books from the library of the late Rev. W. E. Thomas, D. D.

### COLLEGE Y. M. C. A.

The College branch of the Y. M. C. A. is in successful operation, with a large membership; it is earnestly desired that all students identify themselves with this noble work.

### SPECIAL LECTURES, SERMONS AND RECITALS

Special addresses and lectures were delivered, during the year, by the following named persons:

Mr. Alexander Johnson, Camp Greene, lectured on the work of the Red Cross.

Rev. L. B. West, pastor of Biddleville Presbyterian Church, Y. M. C. A., address.

Prof. J. E. K. Aggrey, Livingston College, lectured on War Work Campaign.

Dr. Winfield Scott Hall, Northwestern University, two lectures on Eugenics.

Miss A. L. Augustus, Y. W. C. A. secretary, gave Y. M. C. A. address.

Bishop J. Albert Johnson, Philadelphia, general lecture. Mr. Thomas, Y. M. C. A. secretary, lectured on overseas work.

Rev. H. H. Jackson, pastor of Little Rock A. M. E. Zion Church, Charlotte, Y. M. C. A. address.

Lieut. G. E. Nelson, a lecture on "Experiences in Active Service with the American E. F., in France.

Major Balk, Camp Greene, address.

Rev. J. J. Wilson, D. D., Wadesboro, N. C., six sermons and lectures, March 2-5.

Dr. Charles S. Butler, general secretary Eastern Division, New Era Movement, lecture.

Dean G. Lake Imes, of Phelps Hall Bible Training School, Tuskegee Institute, general lecture.

### Degrees and Regulations Covering Same

All degrees are conferred by the Board of Trustees, on the recommendation of the Faculty.

- 1. On completing the regular prescribed Classical Course, each candidate may receive the degree of A. B.
- 2. On completing the regular prescribed Scientific Course, each candidate may receive the degree of B. S.
- 3. On completing the regular prescribed course in the School of Theology, with a general average of ninety per cent or more, each candidate may receive the degree of S. T. B.
- 4. It being inexpedient, Biddle University will not grant the same degree as honorary as it grants in the regular course on examination.
- 5. In every case the reason for bestowing an honorary degree shall be openly avowed and publicly stated in connection with the commencement program.
- 6. The Master's Degree will not be granted except for post graduate study of at least one year's duration, tested by adequate examinations in the prescribed course.
- 7. The minimum requirement for the degree of Doctor of Philosophy, Doctor of Science, and Doctor of Pedagogy, shall be as follows:
- (a) The possession of a bachelor's degree, or its equivalent.
- (b) The completion of two years of post graduate study; not more than one year, however, of actual residence in the Institution shall be required, but that must be the final year. Matter of residence may be waived.
- (c) Adequate examinations—one at the close of each scholastic year—and thesis embodying the result of original research at the close of the second year, the thesis to bear the written acceptance of the professor in charge of the major subject, accompanied by a short biography of the candidate.

The following shall be recognized as honorary degrees: D. D., LL. D., and Master of Pedagogy.

# CHARLOTTE, N. C.

#### PRIZES OFFERED

The H. L. McCrorey Prize is five dollars in gold, offered to that member of the Junior Theological Class making the highest percentage in the study of the Hebrew Language, provided this is above ninety per cent for the year.

The Alumni Prizes are two Gold Medals offered by the Alumni Association for superior excellence in Oratory: one to the Junior College Class, and the other to the

Fourth Year High School.

The Blue Banner: This beautiful banner is contested for by all the students of the University, immediately preceding Commencement Day. The student who sustains himself longest in answering accurately the questions in the Shorter Catechism is awarded this banner, which is held for his class until the next annual contest.

### Degrees Conferred 1918

### BACHELOR OF ARTS

The degree of A. B. was conferred upon W. P. Alston, T. Blake, P. H. Blount, J. A. Bryan, H. S. Davis, G. P. Downing, W. C. Dent, H. F. Gunn, B. H. Hester, J. Ison, S. O. Johnson, P. S. Lewis, C. N. McMillan, H. S. Partee, W. B. Pettiford, D. J. Sammons, W. B. Sample, F. H. Sellars, W. E. Simpson, E. H. Steele, J. P. Stephens, J. H. Ward, M. J. Womack.

### BACHELOR OF SCIENCE.

The degree of B. S. was conferred upon J. E. Bryan, W. Chisholm, Jr., C. H. Flippin, W. A. Morgan, C. W. Murray, H. M. Stanback, W. P. Williams.
